

Fibre Optic Patch Panel – Rack Mount

Features

- Available in 12-port and 24-port configurations, offering a high-density solution for efficient fiber optic connectivity in data centers and telecommunication rooms.
- Supports a wide range of fiber optic adaptor types, including SC, LC, ST, FC, E2000, and MTRG, providing flexibility to accommodate diverse network requirements
- Designed for standard 19-inch rack mounting, enabling easy integration into standard network racks and cabinets.
- Incorporates a sliding tray design, facilitating easy access to fiber optic connections, enabling quick installations, maintenance, and cable management.
- Comes with splice tray(s) and cable management kit for convenient fusion splicing and termination of fiber optic pigtailed within the patch panel, allowing for additional connectivity options.
